

Work happening in your area

From February 2025 you may see our contractors in the area as we begin ground investigations for East West Rail (EWR). This work is crucial to help us understand the soil, rock and groundwater below the surface so that we can design the railway in a responsible and environmentally sustainable way.

The team will be adhering to robust health and safety procedures and will work hard to minimise any disruption to communities.

Find out more about the type of work happening at:
